

# Otra-Tech 707

Handheld Barcode Scanner  
Portable wireless 1D/2D

# OTRA-TECH

*portable wireless scanner can interpret various  
1d/2d codes*

*wireless bluetooth transmission distance: 30-50  
meters open area*

*can be paired directly with bluetooth enabled  
mobile phones, tablets and laptops*

## Parameters

|                               |                                                                                                                                                                                                                                                                                                                                   |
